DETAILED ACTION

(1)

Election/Restrictions

Applicant's election of Group I, claims 1 and 2 in the reply filed on January 3, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

(2)

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Non-elected claims 3 and 4 have been cancelled.

(3)

Allowable Subject Matter

Claims 1 and 2 have been found to be allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Methods for the formation of printed identification card core, such as taught by U.S. Patent Nos. 5,058,926 to Drower and 4,540,612 to Rhyner and JP 04-18348 are known in the art. Rhyner, for examples, discloses one such process wherein a polyolefin/polyethylene laminate web is die cut to form a foldable rectangular body into which is inserted a document followed by sealing. The foldable rectangular body of Rhyner, however, does not itself constitute the ID card core. Drower discloses a similar method. Although methods for the formation of polyolefin/polyolefin laminates by extrusion are known in the art, such as disclosed by U.S. Patent No. 3,616,191 to Fuerholzer et al., none of the prior art of record specifically teaches or suggests the method set forth in applicant claim 1 wherein a polyethylene film is extruded onto a release liner followed by the lamination of a porous printable polyolefin film thereto after which the laminate is die cut to define rectangular panels foldable along a die cut fold line, followed by

Art Unit: 1734

the printing of the polyolefin film, removal of the printed laminate from the release film and folding of the rectangular body around the fold line to locate the printed polyolefin surfaces on the exterior of the folded core.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
